

# ASIAN INTERNET ENGINEERING CONFERENCE (AINTEC) 2011

Date: 9th-11th November 2011

Venue: Bangkok, Thailand

Organized By :

The **7th Asian Internet Engineering Conference (AINTEC)** provides an international technical forum for experts from industry and academia, especially aiming at addressing issues pertinent to the Asia and Pacific region with vast diversities of socio-economic and networking conditions while inviting high quality and recent research results from the global Internet research community. **AINTEC 2011** follows the six successful editions held in Thailand.

The conference is single-track and features a technical program with significant opportunities for individual and small-group discussions among a diverse set of participants. The technical sessions will include invited talks by leading experts, presentations of papers, demos, posters and pre-conference activities ( **22nd Asian School on Computer Science on 7-8 November 2011** ).

**AINTEC 2011** solicits high quality papers that improve digital communications in diverse situations, represented as "Challenged Networks".

Submissions must be original, unpublished, and not have been submitted to another conference or journal for publication. Papers must be submitted in electronic format following the instructions provided on the AINTEC web site

**Areas of interest include, but are not limited to the following:**

- \* Networking technologies in developing regions
